Row after row of all your favorite fabrics dance wildly side-by-side to a rhythmic beat in this easy scrap quilt. It's a project that's as festive and fun as a Fiesta!

Go totally scrappy or you might want to make your quilt using a planned color scheme including fabrics that are from one or two color families (blues and yellows, patriotic, fall colors, black and white, etc.). You might decide to use all reproductions, all batiks (as shown on page 1), all brights—depends on how deep your stash is!

**Fabric**

**Strips:**
The equivalent of about 3 yards fabric—scraps, fat quarters or yardage; cut into 3” strips x any length (no shorter than about 5-6”). Try to use only strips 22” long or shorter—any length, just don’t use strips longer than 22”. If they are too long cut them in half or thirds—don’t measure, just cut random lengths. You will need about a mile of strips (well, maybe not quite that much). You’ll need about 1200” of 3” strips or (30) 3” x width of fabric strips.

**Border #1:** ½ yard; cut into (6) 2” x width of fabric (WOF) strips
**Border #2:** 1 ½ yards; cut into (7) 6” x WOF strips
**Binding:** ¾ yards (7) 2 ½” x WOF strips
**Backing:** 4 yards (pieced crosswise) or make pieced backing at least 66” x 77”
